Embedded Systems and I/O Boards • Metric & Inch Engineered Components • NEMA 4X Fiberglass Enclosures

Aluminum Transit & Rackmount Cases • Non-Contact Infrared Temperature Sensors • Thermal Imagers

System Platforms and Backplanes • Test and Measurement Products

Color Measurement Instruments • Scales & Balances

Manufacturers

www.acromag.com

Embedded I/O Boards

CompactPCI 3U/6U, PCI full/half-length and VMEbus 3U/6U boards
IndustryPack, PMC, XMC, and VPX FPGA Modules
PMC and IndustryPack Mezzanine Modules
Analog, digital, and multifunction I/O
Software support for VxWorks, Win32 DLL, and Linux

www.alliedmoulded.com

NEMA 4X Fiberglass Enclosures

Sizes range from 7" x 4" x 3" junction boxes to 72" x 49" x 25" double door free standing fiberglass cabinets.
Accessories include: back panels, ventilation kits, and pole mount kits
Custom modifications: holes or cutouts, EMI/RFI shielding, silk screening, and molded-in color
NEMA Type 1, 2, 3, 3R, 4, 4X, 12, and 13. UL & CSA Listed

www.dwyer-inst.com

Test and Measurement Products

Wide variety of gages/switches for pressure, temperature, level, air velocity, flow, and humidity
Handheld instruments include manometers and thermometers
Temperature/Process controllers
Digital data loggers and chart recorders
Intrinsically safe versions of many products are available

www.fluke.com

Thermal Imagers

Complete range of easy-to-use thermal imagers from entry level to high precision
Designed to withstand up to a 6.5 ft drop
IR-Fusion Technology allows for infrared and visible light images to be fused together
Ideal for electrical and mechanical systems, electrical utilities, predictive maintenance, process monitoring, R&D, and building inspections.
Image analysis and reporting software included

www.hartmann-electronic.com

System Platforms and Backplanes

System Platforms: VME/64x, cPCI/2, VPX, VXS.
Available in 19" rack, desk, and panel mount
Backplane Technologies: cPCI, VME/64x, VPX, VXS, VXI
High-speed differential pair routing for Gigabit Ethernet, PCI Express, Infiniband, and Serial I/O

www.jwwinco.com

Metric and Inch Engineered Components

Products include adjustable levers, casters, control levers, handles, hand wheels, knobs, and more
Secondary machining, custom made std. parts, and special kit packaging/labeling available
Over 18,000 items in stock (Online ordering available)
2D/3D CAD files available
Free UPS Ground shipping on orders over \$20

Manufacturers

KONICA MINOLTA
www.konicaminolta.com

Color Measurement Instruments

Colorimeters and spectrophotometers to measure reflected color difference with high accuracy
Portable and bench top units available
Applications include: food, plastics, paints, coatings, paste, baked goods, liquids, automotive, and cosmetics

OHAUS
www.ohaus.com

Laboratory and Industrial Scales & Balances

Analytical, precision, moisture analysis, portable, and electronic bench scales and balances
Scale capacity ranges from 62g to 270kg
Readability ranges from 0.01mg for analytical balances to .1g for precision balances
Options include AutoCal (Automatic Internal Calibration and NTEP approval), RS232 or USB plug-ins, and draft shield doors

Raytek
A Fluke Company
www.raytek.com

Non-Contact Infrared Temperature Sensors

Fixed mount infrared temperature sensors and scanning systems used where contact would damage or alter the surface
Series Temperature ranges: Compact (0 – 3002 F), Marathon (480 – 5430 F), Thermalert (0 – 3630 F)
Products are used in industrial processes to provide continuous and accurate temperature monitoring
